FOR IMMEDIATE RELEASE

Quakerbridge Radiology Associates, P.A. is Now Providing the Latest in Bone Health Assessment,

Mercerville, NJ - April 13, 2009 – Quakerbridge Radiology Associates, PA has expanded its health and wellness services available to men and women with the addition of the Discovery™ QDR bone densitometry system from Hologic®.

The imaging technology of the Discovery provides superb image quality incorporating computer-aided fracture assessment, to quantify and display the degree of vertebral compression, the best diagnostic tool to support early detection and treatment of osteoporosis. Discovery is the single platform to support a broad spectrum of patients over a lifetime of care. Discovery enables new dimensions in care, including greater insights into biomechanical strength, lumbar spine and proximal femur studies, BMD measurement of the entire skeleton, vertebral fracture assessment and many other clinical applications.

Quakerbridge Radiology Associates, P.A. provides a comprehensive scope of services addressing the physical, emotional and educational needs of our clients. Our staff is highly trained and our equipment is state-of-the-art. We are committed to providing exceptional care to the people in our community.

Quakerbridge Radiology Associates, P.A. is a health care organization with the primary mission of offering high quality, acute health care and preventative medical care in a caring and compassionate manner to all people. We offer extensive discounts to all patients who do not have the ability to pay. For further information, please visit our web site at www.qbradiology.com. To book an appointment call 1-609-890-0033, prompt 1.

About QRA -- Quakerbridge Radiology Associates

Quakerbridge Radiology Associates (QRA) was founded in 1974, and has become the premier radiology center in the area that offers the utmost convenience, state-of-the-art equipment, the most qualified radiologists, and most importantly, a sincere attitude of caring about both its referring doctors and its patients. QRA is dedicated to providing the highest caliber of imaging services to Bucks and Mercer Counties. Their state-of-the-art facilities, in Mercerville and Lawrenceville, offer high-field and open MRI, Breast MRI, Digital Mammography with CAD (computer-aided detection), CT Scan, Ultrasound, DEXA for measuring Bone Densitometry, and conventional X-Ray imaging studies. These services complement an over 30-year tradition of providing radiology services to the local community.
